INNOVATIVE FEATURES

- 1 **CLOSED-LOOP ENGINE COOLING** protects the engine from harmful salt, gunk and corrosion by cooling it with clean coolant like a car. Like your car, every Scarab has a thermostat to ensure optimal engine temperature for engine reliability.
- 2 **DRIVE SHAFT SLEEVE** helps prevent the problem of wrapping debris, such as tow ropes and weeds, around drive shaft. Other systems can only try to fix the problem after it occurs.
- 3 **LATERAL THRUST CONTROL** delivers quicker reverse. Unlike other boats, which feature a small, plastic reverse gate, our aluminum reverse gate offers unmatched low-speed maneuverability to make docking a breeze.
- 4 **iNR (INTELLIGENT NEUTRAL & REVERSE)** A game changing feature for jet propulsion. iNR system allows you to adjust your boat's neutral speed on-the-fly greatly increasing low-speed maneuverability. The iNR system also delivers smooth, predictable deceleration when shifting to reverse while underway.
- 5 **iDF (INTELLIGENT DEBRIS FREE) PUMP SYSTEM*** Thanks to an innovative debris-free pump system, you can now unclog watercraft intakes in seconds without leaving the helm. Simple, operations directly from our Touch Screen Command Center. iDF is so easy to use, it's almost second nature. Stay high and dry and get back to boating with ROTAX® iDF.

*Only available on the Scarab 235 ID and 235 OPEN ID
